## 1. WELCOME TO UNIVERSIDAD LOYOLA ANDALUCIA

The Universidad Loyola Andalucía, created by the Society of Jesus, is the first private Andalusian University, whose mission, faithful to the best Jesuit university tradition, is to train men and women for others, the best people “for” the world.

The same as ESADE (1958, Barcelona) and ICADE (1961, Madrid), the Universidad Loyola Andalucía, promoted by ETEA (1963, Córdoba), the former Faculty of Economic and Business Sciences of the Universidad de Córdoba, followed DEUSTO’s University steps (1916, Bilbao) in order to expand Business and Administration Sciences studies all over Spain.

Today the Universidad Loyola Andalucía offers a wide range of courses through our Bachelor’s Degrees, not only in business and economics : Business Administration, Law, Communication, Psychology and International Relations, Economy, Electromechanical Engineering, etc.

Our Business School, **Loyola Leadership School**, offers a wide selection of master’s degrees, executive education programs and in house programs focused on a better education, both personal and professional, for people and companies.

All this in a multilingual and multicultural environment, supported by **Loyola School of Languages, Culture and Communication - Loyola SOL** is more than just a School of Languages; it’s also a meeting point of cultures- and also by **ETEA Foundation for Development and Cooperation**– institution for research, education and action to serve those most in need, with over 25 years of work in Asia, America and Africa.

You can have a look at our summer programs videos to have a hint of our activities and life in the campus. <http://vimeo.com/100634672>

## 4. ABOUT UNIVERSIDAD LOYOLA ANDALUCÍA'S TEACHING STAFF AND PEDAGOGICAL METHOD

The prestige of Universidad Loyola Andalucía is supported by the reputation of excellence of its former institution ETEA (born in 1963), acquired over its 50 years of existence. We have a teaching staff of proven excellence.

With an extensive teaching and research experience of our professors, who have a deep knowledge of the economic and business world, students receive the knowledge, values and skills that the current labour market requires.

Universidad Loyola Andalucía has a strong vocation for research. It has more than 15 innovative interdisciplinary strands, thus becoming a **research university**.

The Universidad Loyola Andalucía's academic teaching method is based on training for leadership. It combines the intellectual training with mastery of technical knowledge, with the development of social relationship skills.

The educative project rests in several performance lines: regular courses, languages, Debate Club, Theater, sport activities, complementary training courses, seminars, internships, academic guidance and academic exchanges... in reduced groups of 60 students.

## 5. ACADEMIC OFFER

Our students usually have between 20 and 25 hours of In-class lectures sessions per week. Most of them are lectures in the classroom, sometimes also tutorials, assignments, case studies, practical sessions, etc., depending on the subject and the corresponding lecturer.

## 7. APPLYING TO LOYOLA

Students intending to apply to Universidad Loyola Andalucía as an Erasmus or an International Exchange student must follow some steps:

- The International Office at Loyola Andalucía must receive the student's Nomination from the student's Home University (normally by email).
- The nominated students must fill in an application form (with Word processor) and send it to [amiguel@uloyola.es](mailto:amiguel@uloyola.es) / [mcmartinez@uloyola.es](mailto:mcmartinez@uloyola.es)
- The International Office will send an email confirmation to the student with information about the exchange program.
- The International Office will send Letters of Acceptance to non EU students in order to obtain their visa.
- Students coming from EU institutions who will need a letter of acceptance from Universidad Loyola Andalucía, must require it specifically. Otherwise we do not send expressly letters of acceptance to EU students.

Before the student's arrival, they will receive an e-mail from their tutor-buddy, a student from Universidad Loyola Andalucía who will be in charge of their integration in Seville. Their tutor will be in contact with them prior to their arrival in Spain and will pick them up at the station.

As soon as students know their arrival date in Seville, they MUST communicate it to their tutor indicating approximate time of arrival. If they do not know their exact arrival date in advance (at least 15 days in advance), it will not be possible for tutors to pick up international students at the train or bus station.

### **7.1. STARTING YOUR EXPERIENCE AT LOYOLA**

After the arrival the student must proceed to its official registration for the desired courses at Universidad Loyola Andalucía. The registration process has a cost of 30€ for administrative fees.

When they are officially registered, students will receive the student card and their username and password to access WIFI, library and other facilities.

## **8. PRACTICAL INFORMATION**

### **SEVILLE**

Seville is a nice and welcoming town. Its population is about 703,000 inhabitants. The capital of the Andalusian Region is a beautiful and historical city. It has many UNESCO World Heritage Sites.

Seville is an affordable city compared to the rest of Spain, although expenses may vary according to everyone's personal requirements. 600€/month is the average expense for a student in our city (housing included).

Eating out in Spain is often cheap and meals are substantial. One of the best ways to sample Spanish food is to try "tapas". "Tapas" are very typical, but are not a normal daily lunch or dinner. The areas recommended to taste tapas are "El Salvador" or "la Alfalfa".

Breakfast and lunch are served at our cafeteria at a good price. (coffee + toast breakfast is 1,60 €; one course menu is 5 €; 2 course menu 7 €, etc).

The nightlife in Seville is very active and offers endless entertainment options. You will find that "Paseo de Colón", "Calle Betis", the areas surrounding the river are bustling with people. You can have updated information about concerts, activities and other events at La Guía Go: (<http://sevilla.laguiaigo.com/>) or downloading the app Agenda ICAS Sevilla on your mobile phone

Transport is very affordable too. A single ticket is 1.40, however with a bus card the journey is 0.69€. ([www.tussam.es](http://www.tussam.es)).

Moving around in Seville by bicycle is easy and convenient since there are cycleways in most parts of the city. If you own your own bicycle you will be able to travel around the city fast. However, if you do not have any bicycle you can buy a year bonus to use public bicycles.

SEVICI (<http://www.sevici.es/>) -Servicio de Bicicletas Públicas. Click on the following link to see the instructions. The Price is 33 €. (<https://abo-seville.cyclocity.fr/subscribe/details>).

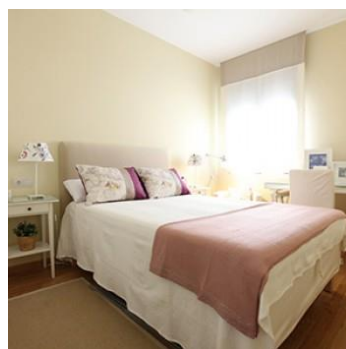

Taking a taxi is another affordable possibility we highly recommend for late night, it's not expensive (around 6 €)

## 8.1. ACCOMMODATION

The International Office will help you finding a suitable accommodation in Seville, by recommending some agencies that collaborate with Universidad Loyola Andalucía and offer the best rooms in town for our students.

In Seville, one of this agencies is **Room Sevilla**. They offer affordable and centrally located apartments. You can book your apartment online: [anna@roomsevilla.com](mailto:anna@roomsevilla.com)

This agency won't charge you with extra fees for their accommodation services. You can have a look at their website at <http://www.roomsevilla.com/>

Your buddy will also help you, before your arrival, in finding an accommodation.

We can also give you some advice in the case you want to stay with a home family.

## 8.2. VISA INFORMATION

Visas are not required for EU-citizens.

A student visa is mandatory for any Non-European student wishing to study in Spain for one semester or two semesters. The visa is processed in your country of residence prior to your departure

All student visas are valid for a period of 90 days from your entry day into Spain. If the student is going to stay for the whole academic year, he or she must contact the local authorities to acquire a student residency card valid until the end of the academic year.

To do so, the student needs to apply for the Tarjeta de Identidad de Extranjero (TIE) at the Central Police Station if they are going to stay for more than 6 months.

The following documentation is needed:

- **3 passport sized photos**
- **TIE form duly filled**  
([Uhttp://extranjeros.empleo.gob.es/es/ModelosSolicitudes/Mod\\_solicitudes2/17-Formulario\\_TIE.pdf](http://extranjeros.empleo.gob.es/es/ModelosSolicitudes/Mod_solicitudes2/17-Formulario_TIE.pdf))
- **Receipt of the fee payment for the issuing of the card: 10.30 €.**

All this information about legal procedures and more is available at Universidad.es Website:  
<http://universidad.es/study-in-spain/legal-information>

## 8.6 HEALTH IN SEVILLE

The Spanish Social Security system covers medical assistance for all EU citizens with an European Health Card.

- **Students from EU countries** must apply for the European Health Card in their country to benefit from the social security before travelling to Spain or the E-111/128 forms. The health card and these forms will entitle them to medical care within the Spanish Medical Security System.

[http://www.seg-social.es/Internet\\_6/Trabajadores/PrestacionesPension10935/Asistenciasanitaria/DesplazamientosporE11566/TSE2/index.htm](http://www.seg-social.es/Internet_6/Trabajadores/PrestacionesPension10935/Asistenciasanitaria/DesplazamientosporE11566/TSE2/index.htm) .

- However, Spain has agreements with **some non-EU countries**. The list of countries with a bilateral agreement can be found on <http://www.seg-social.es/>, under “Internacional”.
